

22 July 2026

IETF 126

Internet Congestion Control Research Group (ICCRG)

This session is being recorded

Note Well - Intellectual Property

- **The IRTF follows the IETF Intellectual Property Rights (IPR) disclosure rules**
- By participating in the IRTF, you agree to follow IRTF processes and policies:
 - If you are aware that any IRTF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion
 - The IRTF expects that you file such IPR disclosures in a timely manner – in a period measured in days or weeks, not months
 - The IRTF prefers that the most liberal licensing terms possible are made available for IRTF Stream documents – see [RFC 5743](#)
 - Definitive information is in [RFC 5378](#) (Copyright) and [RFC 8179](#) (Patents, Participation), substituting IRTF for IETF, and at <https://irtf.org/policies/ipr>

Note Well - Audio and Video Recordings

- The IRTF routinely makes recordings of online and in-person meetings, including audio, video and photographs, and publishes those recordings online
- If you participate in person and choose not to wear a red “do-not-photograph” lanyard, then you consent to appear in such recordings, and if you speak at a microphone, appear on a panel, or carry out an official duty as a member of IRTF leadership then you consent to appearing in recordings of you at that time
- If you participate online, and turn on your camera and/or microphone, then you consent to appear in such recordings

Note Well - Privacy & Code of Conduct

- As a participant in, or attendee to, any IRTF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public
- Personal information that you provide to IRTF will be handled in accordance with the Privacy Policy at <https://www.ietf.org/privacy-policy/>
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this
- See [RFC 7154](#) (Code of Conduct) and [RFC 7776](#) (Anti-Harassment Procedures), which also apply to IRTF
- Also see [RFC 9775](#) (IRTF Code of Conduct)

Goals of the IRTF

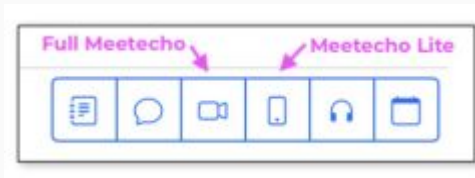

- The Internet Research Task Force (IRTF) focuses on longer term research issues related to the Internet while the parallel organisation, the IETF, focuses on shorter term issues of engineering and standards making
- **The IRTF conducts research; it is not a standards development organisation**
- While the IRTF can publish informational or experimental documents in the RFC series, its primary goal is to promote development of research collaboration and teamwork in exploring research issues related to Internet protocols, applications, architecture, and technology
- See “An IRTF Primer for IETF Participants” – [RFC 7418](#)

IETF 126 Meeting Tips

In-person participants

- Make sure to sign into the session using the Meetecho (usually the "Meetecho lite" client) from the Datatracker agenda
- Use Meetecho to join the mic queue
- *Keep audio and video off if not using the onsite version*

Remote participants

- Make sure your audio and video are off unless you are chairing or presenting during a session

Resources for IETF 126 Vienna

<https://datatracker.ietf.org/meeting/agenda>
- Meetecho and other information:
<https://www.ietf.org/meeting/preparation/>
- If you need technical assistance, see the Reporting Issues page:
<https://www.ietf.org/meeting/issues/>

ICCRG Administrativa

- IRTF RG on Information-Centric Networking
- Mailing list: iccrq@irtf.org
- Web: <https://www.irtf.org/iccrq.html>
- Chairs:
 - Simone Ferlin-Reiter
 - Reese Enghardt
 - Vidhi Goel
- This meeting
 - Note taker: (TBD)

Agenda

- Chair slides & Hackathon update
Chairs 5 minutes
- Pacing in Transport Protocols, [draft-irtf-iccrp-pacing](#)
Michael Welzl on-site 5 minutes
- Windowless Cumulative ACK Extension for RDMA Retransmission, [draft-chen-rdma-windowless-ack](#)
Danyang Chen remote 5 minutes
- Testing Congestion Control and Queue Management Mechanisms
Mohit Tahlilani on-site 15 minutes
- Using Little's law queueing theoretic approach as congestion window update
Dumisa Ngwenya on-site 20 minutes
- MOONCAKE: trading more storage for less computation - a KVCache-centric architecture for serving LLM chatbot
Mingxing Zhang remote 30 minutes
- Managing Congestion Control Heterogeneity on the Internet with Approximate Performance Isolation
Ayush Mishra on-site 20 minutes

Status: Active drafts

Document	Date	Status
Active Internet-Drafts (2 hits)		
draft-irtf-iccrp-pacing-02 Pacing in Transport Protocols	21 pages 2026-06-26	I-D Exists IRTF stream
draft-irtf-iccrp-ledbat-plus-plus-06 LEDBAT++: Congestion Control for Background Traffic	13 pages 2026-01-29	I-D Exists : In Progress Sent to the RFC Editor : Experimental
